All regional vendors providing discount prices are subject to an investigation process before their presentation for approval by the Board of Trustees of the PEF Membership Benefits Program. This process assures the Trustees that the vendor has no serious complaints filed against them. The PEF Membership Benefits Program makes no representation as to the equality or competitiveness of the products and services provided by any regional vendor listed in this guide. Each PEF member and eligible dependent is responsible for making his/her own decision about the use of regional vendors and should compare prices and services to find the most suitable providers.

The Board of Trustees, the policy making body of the PEF Membership Benefits Program, meets regularly to discuss current as well as potential benefits. The guiding principal of the trustees is to keep the Membership Benefits Program adaptable and growing to meet the changing needs of the PEF membership. **For the most up-to-date Regional Vendors please visit www.buymbp.com.**

If you know of a vendor in your area that would like to offer PEF members a discount, please e-mail mbrequests@pef.org with the information and we will contact the vendor.
